

# Sonora Quest Laboratories

By leveraging the ATLAS EMPI solution, Sonora Quest Laboratories synchronizes disparate information systems, creates consolidated billing and boosts its bottom line by \$3.2 million in just 18 months while also reducing bad debt by about 19%. With patient identification and test data across multiple encounters, the laboratory is practicing coordinated diagnostics as it services over 22,000 patients in a day, and reaching out to 11 ACOs in Arizona, as well as insurance companies and physician specialty groups. It strives toward a vision of being completely patient-centric.

## Success Story
